

IDEACOM FINANCIAL SERVICES

INVEST WISELY IN YOUR FUTURE SUCCESS.

We specialize in financing telecommunications equipment, security / life safety installations and technology driven projects. We use a consultative approach to develop financial programs that work for your specific funding needs.

◀◀ Get Strategic Funding Options

We are pleased to offer a variety of funding options that work to your advantage by enhancing your cash flow and preserving valuable credit lines.

◀◀ Bundled Options

We offer the ability to bundle equipment, consumables, service, warranties, and software on a single invoice.

◀◀ Flexibility

We can help find financing solutions that support your desired funding model. We have options for deferred payment, fixed monthly payments for future multi-phased projects or budget for necessary tech upgrade expenses, step payment plans, and even future funding with the flexibility to get equipment now and up to 6 months to decide how to pay for it.

◀◀ Government Financing ▶▶

We can provide state and local government customers with tax exempt pricing and structures unique to government entities.

◀◀ Fast and Convenient Process ▶▶

With our financial consultants, we manage all the complexities of financing any new project. Forms are simple, decisions quick, and options are flexible.
