

HELPING YOU CARE FOR YOUR RESIDENTS

Senior Care Solutions from Ideacom

About Ideacom

We have over 64 years of experience in helping healthcare, senior living, education, hospitality and business organizations succeed in improving your communication and technology to better achieve your goals. Our focus is finding areas where your organization could be more productive and successful and then helping you create the technology path to get there.

Why Work With Us?

- + We consult with you to find options that will get you the results you want.
- + Design an engineered solution to meet your needs and desired outcomes.
- + Our project managers will implement and guide your project every step of the way
- + We always provide expert installation and 24/7 service and support.

LIFE SAFETY | ALERT SOLUTIONS

A modular, scalable resident response system with wired, wireless and hybrid options that can easily be expanded over time to meet future needs of your residents.

DOOR ACCESS | SECURITY

We offer several options for door access, cameras, and secure entrances to enhance your overall safety initiatives.

MOBILITY

Mobile devices work to bridge information gaps—making it easier to communicate, coordinate and improve response time.

PENDANTS | WEARABLES

Wireless pendants to real-time locating systems offer the maximum freedom for residents while providing a safe place to call home.

WANDER MANAGEMENT

Keeping residents safe with memory/dementia issues is challenging, but we have options that provide discrete alerts, comfortable wearable sensors, and restrict access.

REPORTING | ANALYTICS

Choose from a large array of data points for customizing your reports to provide the information you need most.
